Erratum

Gadolinium—a specific trigger for the development of nephrogenic fibrosing dermopathy and nephrogenic systemic fibrosis?

Thomas Grobner

Nephrol Dial Transplant April 2006; 21: 1104–1108

The author would like to apologize for the error published in the article.

After personal communication with the radiologists the administered Gd-contained contrast agent was documented in the MR examination reports of the mentioned nine patients incompletely and inexactly as Gd-DTPA by themselves. There is solely one MR contrast agent used in the described observation period: Gd-DTPA-BMA. Therefore, all mentioned nine patients received Gd-DTPA-BMA and not Gd-DTPA.
